East side _____ Single Double Outside

COMMENTS: _____

The transfer to any slip is dependent on the availability and/or suitability of that slip and dock to handle the size and weight of your boat. Some slips may be large enough to dock a specific boat, but the dock construction, anchoring and spacing from adjacent boats may not make docking the boat practical from the standpoint of protecting the boat, the dock, or other member's boats.

The final decision on the suitability of each slip change will rest with the Harbor Master and the Board of Governors.
